Program link: <https://www.jseniors.org/careers/internships-residency/geriatric-residency>

The Jewish Senior Services Clinical Residency is a one-year, full-time program that effectively incorporates the positive attributes of academic and clinic-based residencies into a unique program, which includes teaching opportunities and advanced clinical practice.

Sacred Heart University's Orthopaedic Residency

Program Contact(s):

Program Website: <https://www.sacredheart.edu/majors--programs/orthopaedic-physical-therapy-residency-program/>

Contact Information: grimesj@sacredheart.edu

The SHU Orthopaedic Physical Therapy Residency Program provides an excellent opportunity for individuals looking to expand their knowledge and sharpen their skills in orthopaedic physical therapy, as well as establish a

background and potential pathway for a future role in physical therapy education.

The SHU Orthopaedic Residency Program, now celebrating its 15th year, is a 12-month program starting in mid-August each year. We are a university-based program, working within the SHU DPT program, which allows us to tap into numerous resources at the University. Our curricular content is provided through 6 primary courses delivered over 3 semesters, utilizing blended online, live remote, and live in-person formats. We also have the ability to supplement that didactic content with select orthopedic courses offered through our Physical Therapy Continuing Education Program. Our Residents are also directly involved in teaching in the musculoskeletal labs for our DPT curriculum and have opportunities to perform research and other scholarly projects. Our primary goal through the Residency program is to expedite clinical reasoning and enhance content knowledge and skill to promote expert practice.

Physical Therapy and Sports Medicine Centers Orthopaedic Residency

Program Contact(s):
Danielle Dunn: danielle.dunn@ptsmc.com

Physical Therapy & Sports Medicine Centers Orthopaedic Residency Program is a year-long private practice accredited residency specializing in orthopaedics. PTSMC's clinical leaders teach and mentor weekly in our residency program in addition to external home study courses through the AOPT. At the culmination of our residency program, our graduates complete our Leadership & Management Development Program as preparation for partnership, director role or other leadership positions.

Live Every Day Orthopaedic Residency

Program Contact(s):
Contact Information:
Shellane Shattuck - Residency Director

LIVE EVERY DAY

138 Hopmeadow St.

Simsbury, CT

The LIVE EVERY DAY Orthopaedic Residency program is 15 months in duration and our goal is to prepare the resident to become an advanced practitioner in orthopaedic physical therapy. We place high value on individualized clinical care with robust 1:1 weekly mentoring. Our residents are offered a full time appointment and we do not charge tuition. Residents are expected to manage a part time clinical caseload with the remaining time allotted for self-paced course work, guest lecture/lab time at Springfield College, leading and attending journal clubs along with attendance to regional and national conferences.

Hartford Healthcare and University of Hartford's Orthopaedic Residency

Program Contact(s):

Jonathan Sylvain, PT, DPT, OCS, FAAOMPT

Clinical Director - Orthopedic Residency Program

Hartford HealthCare Rehabilitation Network

Jonathan.Sylvain@hhchealth.org

Brian Swanson, PT, DSc, OCS, FAAOMPT

Academic Director - Orthopedic Residency Program

University of Hartford

Bswanson@hartford.edu

Seth Hagymasi, PT, DPT, OCS, FAAOMPT

Program Coordinator - Orthopedic Residency Program

Hartford HealthCare Rehabilitation Network

Seth.Hagymasi@hhchealth.org

Hartford HealthCare Rehabilitation Network and the University of Hartford Physical Therapy Department are committed to the training of the next generation of physical therapy clinicians, researchers, and scholars. Training of the Residents in a 13 month hybrid residency model capitalizes on both institutions' highly trained clinicians, faculty, and staff. The program is heavily focused on experiential learning and mentoring, supplemented with didactic education.

The [Orthopedic Physical Therapy Residency Program](#) is accepting applications for the next cohort of Residents now through Apr. 15.

Admission applications will be completed through RF-PTCAS ([RF-PTCAS Web link](#)).

The Live Every Day Neurological Residency

Program Contact(s):

Contact Information:

Director: Maggie Daingerfield

E-mail: mdaingerfield@liveeveryday.org

The LIVE EVERY DAY Neurologic Residency Program is a 12 Month Full Time Residency Program based out of Suffield CT. Our goal is to improve care for neurologic patients along the entire continuum of care, with an emphasis on long term management in the outpatient and community settings. LIVE EVERY DAY is an outpatient physical therapy practice with a mission of creating an atmosphere and culture of life improvement for patients, employees, and community members. Partnerships include local DPT programs, inpatient facilities, local MD offices, and community organizations.
